

ILLUMÉ

*Stylish Insect
Control*

BRANDENBURG
UK Limited

The Illumé flying insect control unit has been designed in a timeless art deco style that can be incorporated within any interior décor. Illumé is designed to offer discreet insect control for all "front of house" areas such as bars and restaurants, and it will also grace any home environment.

The Illumé uses well-proven ultraviolet light technology to draw the insects into the body of the unit. The light is created by a very efficient, 26W compact, fluorescent lamp uniquely developed by our designers for its compact size yet very high light output

Once attracted the insects are then trapped on specially formulated glue boards. The boards are cleverly hidden from view within the Illumé body and can be quickly and easily changed as required.

Illumé can be supplied in a range of colours to suit your décor and is additionally available in easy coat primer which allows a paint finish of any choice to be applied to match your chosen colour scheme. The unit can be hard wired or alternatively a mains lead and plug is supplied to facilitate easy installation.

APPLICATIONS

Restaurants | Bars | Receptions | Take-aways | Shops | Homes

FEATURES

- High Light Output Energy Efficient Lamps
- Worldwide Safety Certification
- 5 Finishes
- Stylish Design
- Quick Easy Maintenance
