## COBRA™

### Features:

- Jet proof version available (IP45)
- UV dispersing translucent cover
- 1400cms of catch area on glue boards
- Easy Service
- Unique Design
- 3 x 15W sleeved tubes
- Silent Operation
- 135 square metre coverage area
- Table top or wall mounted

### Benefits:

The UV enhancing translucent technology allows all Ultraviolet light to shine from the front, top and sides of the unit. This technology significantly improves insect attraction & is independently tested with proven higher catch rate. Large catch area requires less frequent glue board replacement, ideal for heavy infestations in commercial applications. Excellent for use in food handling and other sensitive areas. Service on the Cobra trap is done quickly and easily without any need for tools.

**Consumables: Universal Glue Boards Pack of (15)**      **3 x 15W sleeved tubes**

## ILLUMÉ

### Features:

- High Light Output Energy Efficient Lamps
- Worldwide Safety Certification
- Stylish Design
- Quick Easy Maintenance
- Available in 3 finishes (white and black)
- 75 square metre coverage area

### Benefits:

The light is created by a very efficient, 26W compact, fluorescent lamp uniquely developed by designers. For its compact size, yet very high light output. Once attracted, the insects are then trapped on specially formulated glue boards. The boards are cleverly hidden from view within the Illumé body and can be quickly and easily changed as required. **Consumables: Illume glue boards 10pkt 1x 26w tubes**
