

Pigeons, welcome to....

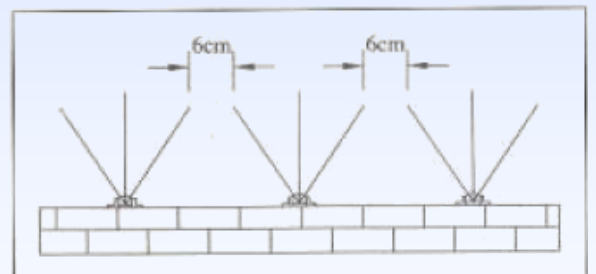

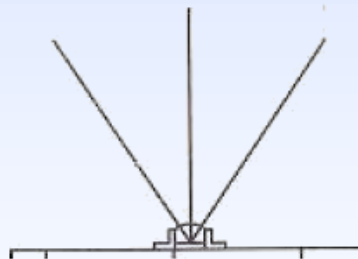

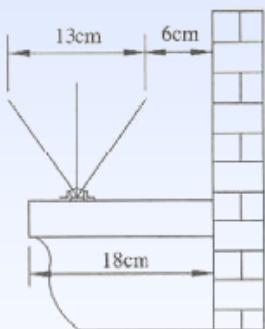

ALCATRAZ

BIRD CONTROL

Try-Spike

Most practical bird deterrent on the market

- Try-Spike is a ready assembled anti-roosting device to stop medium to large pest birds from roosting.
- heavy duty base is made from UV clear polycarbonate and the spikes are a high thin stainless steel rod.
- rods are blunt to prevent injury to the bird or humans.
- base is 52 cm long and can be snapped off into smaller sections to accommodate any situation.
- the product can be glued or screwed in place to suit all situations.
